CONSULT CERTIFY COMPLY

Capability Statement

A nighttime photograph of a city skyline, likely Chicago, viewed from an elevated highway. The foreground shows multiple lanes of traffic with long-exposure light trails from cars, creating streaks of white and yellow. In the background, several skyscrapers are illuminated, including the Willis Tower. The sky is dark, and the overall scene is lit by city lights and traffic.

Shaping Better Futures Through integrated and specialist experience

Who We Are

RLM Consult Certify Comply is an Australian-owned business committed to delivering top-tier consulting services across multiple industries. Our expertise in compliance, certification, and strategic consulting has made us a trusted partner for businesses nationwide. Our services have been instrumental in sectors such as rail, roads, civil, construction, infrastructure, manufacturing and data centres, and are increasingly expanding into health, aviation, and beyond.

We uphold the highest ethical, environmental, and social standards, striving for continuous improvement throughout our operations and practices. Our commitment to excellence extends to all our staff, who conduct business safely, responsibly, and equitably, adhering to all applicable laws, regulations, and standards.

Our Approach

With our integrated and flexible approach to collaboration, we can quickly and effectively adapt to the evolving needs of our clients and their stakeholders. Our extensive experience allows us to bring innovative and strategic thinking to every stage of the project lifecycle. This is supported by our foundation of safety, technical excellence, value for money, and customer-centricity, which are essential for any project's success.

Our Expertise

At RLM Consult Certify Comply, we understand the complexities involved in delivering integrated and compliant management systems and strategies. We manage technical complexities, stakeholder engagement, changing regulations, budget constraints, and unpredictable environmental conditions with precision and efficiency.

We provide tailored teams and solutions to address these complex technical and commercial challenges. Our team includes senior project leaders, compliance experts, safety managers, and industry specialists, who work together to ensure seamless and safe integration of the latest advancements in technology and standards.

Our Team

We take pride in our diverse and inclusive team, which comprises local and international experts to ensure best practices and cultural fit with our clients. Our teams are carefully selected to include design consultants, engineering and construction experts, compliance officers, and government liaison professionals. This diversity and expertise enable us to deliver unparalleled service and value to our clients.

At RLM Consult Certify Comply, we are dedicated to empowering your business with the tools, knowledge, and support needed to achieve and maintain compliance, drive growth, and ensure long-term success.

Our Values

RLM Consult Certify Comply empowers businesses to thrive through a comprehensive range of services. We start by understanding your company's objectives and goals or assist in setting them through achievable deliverables. Our result-oriented strategies drive client success and growth, while our high-quality services ensure your achievements.

Excellence

We strive for excellence in everything we do, delivering high-quality services that exceed client expectations.

Integrity

We uphold the highest ethical standards, acting with honesty, transparency, and respect for our clients, partners, and employees.

Reliability

We prioritise reliability in all aspects of our services, consistently delivering high-quality solutions that our clients can depend on.

Client Focus

Our clients are at the centre of everything we do. We listen attentively to their needs, provide tailored solutions, and prioritise their success.

Collaboration

We foster a collaborative environment, working together as a team to leverage our diverse expertise and achieve the best outcomes for our clients.

Our Mission

Our mission at RLM Consult Certify Comply is to lead the way in skilled professional recruitment, empowering businesses and individuals by leveraging our 20+ years of experience as a national company and by fuelling the world of work with our diverse team of consultants across various discipline.

Innovation

We embrace innovation and continuously seek new and creative ways to solve complex challenges and deliver value to our clients.

Accountability

We take ownership of our actions and results, honouring our commitments and delivering on our promises.

Adaptability

We embrace change and adapt quickly to evolving market conditions, technologies, and client needs.

Social Responsibility

We are committed to making a positive impact on society and the environment, promoting sustainable practices and giving back to our communities.

Long-Term Relationships

We value long-term partnerships with our clients and stakeholders, built on trust, mutual respect, and shared success.

Services

RLM Consult Certify Comply is committed to delivering tailored services that drive your organisation's success. Our expert team excels at aligning professionals with your unique culture and goals.

Professional Consulting And Recruitment

- RLM is a leading consulting and project delivery business which is at the forefront of high-profile rail, construction, road transport, civil, data centres, utilities, mining, and manufacturing projects across Australia for almost a decade. Increasingly our services are broadening to cover a wide range of sectors internationally.

Project Management and Safety Quality and Environmental Management Consultation

- Our experienced project management professionals offer expert consultation services to help organisations plan, execute, and monitor projects effectively. We provide guidance in project planning, risk assessment, resource allocation, progress tracking, and stakeholder management.

Our consulting services focus on developing and implementing robust Safety, Quality, and Environmental management systems. We specialise in identifying and mitigating potential hazards, conducting comprehensive audits, and ensuring compliance with relevant regulations and standards. Our goal is to help businesses achieve excellence in safety, quality, and environmental performance through tailored solutions that meet their unique needs.

Integrated Management System Building for ISO Certification

- We specialise in building integrated management systems that align with international standards, such as:
 - ISO 45001 (Occupational Health and Safety Management System)
 - ISO 9001 (Quality Management System)
 - ISO 14001 (Environmental Management System)
 - ISO 31000 (Risk Management Systems)
 - ISO 27001 (Information Security Management System)
 - ISO 24000 (Social Procurement) ISO 55001 (Asset Management System)

Our experts work closely with clients to understand their unique requirements, design customised management systems, establish procedures and controls, conduct internal audits, and facilitate the certification process.

Services

At RLM Consult Certify Comply, we are dedicated to unlocking your organisation's full potential, leveraging our expertise and comprehensive services to propel you towards unprecedented success. Join us as we unleash boundless possibilities for your growth and achievement.

ONRSR Accreditation

- We specialise in building Rail Safety Management Systems designed for Rail Infrastructure Manager (RIM) and Rolling Stock Operator (RSO) accreditation. Our comprehensive approach ensures that these systems meet stringent regulatory requirements and industry standards, providing a solid foundation for safe and efficient rail operations. Additionally, we offer ongoing support and maintenance to ensure that your safety management systems remain up-to-date and effective, adapting to any changes in regulations and industry best practices.

Roads Prequalification's Scheme

- Navigating the Road Pre-Qualifications Scheme can be complex and demanding, but our expert team at Consult, Certify Comply is here to guide you through every step of the process. We specialise in assisting businesses to achieve the necessary pre-qualifications required for road construction and maintenance projects, ensuring compliance with all relevant standards and regulations.

OFSC Accreditation

- We develop and tailor management systems specifically for accreditation from the Office of the Federal Safety Commissioner (OFSC). Our services include compliance evaluation, documentation support, gap analysis, and assistance in meeting the necessary criteria for OFSC accreditation. Additionally, we provide ongoing maintenance and support to ensure your management systems remain compliant and effective, adapting to any changes in regulations and industry standards.

Technical Assurance Organisation (TAO)

- At RLM Consult Certify Comply, we provide comprehensive support to help your business achieve compliance with the Technical Assurance Organisation (TAO) scheme. The TAO Scheme recognises technical capability within the transport sector, allowing entities to compete to provide self-assured services on Transport assets. Our expert team offers a suite of services designed to guide you through the complex requirements of becoming a TAO, including compliance evaluation, documentation support, and gap analysis. We assist you in preparing for the evidence-based assessment and participation in the surveillance program, ensuring that your operations meet the highest standards of technical assurance.

Services

Heavy Vehicle National Law (HVNL) Certification

- Ensuring compliance with the Heavy Vehicle National Law (HVNL) is crucial for businesses involved in the transportation of goods by road. At Consult Certify Comply, we offer specialised services to help you achieve and maintain HVNL certification, ensuring your operations meet all regulatory requirements and industry standards.

Bidding and Tendering Support

- At RLM Consult Certify Comply, we understand that securing successful bids and tenders is the lifeblood of your business growth in the dynamic civil, construction, and rail industries. That's why we are dedicated to being your reliable ally, guiding you through the complex landscape of bidding and tendering with unwavering expertise.

Quality Auditing, Inspections, and Audits

- Our qualified auditors conduct comprehensive quality audits and high-risk audits to evaluate an organisation's adherence to safety, quality, risk and environment standards, industry best practices, and regulatory requirements. We provide detailed reports, highlighting areas for improvement and offering practical recommendations to enhance safety, quality, risk and environment control processes. We also offer inspection services to assess compliance with safety regulations, identify potential risks, and ensure the implementation of appropriate safety measures.

ICAM Investigations

- Our team of skilled investigators conducts Incident Cause Analysis Method (ICAM) investigations to determine the root causes of incidents, accidents, or near-miss events. We employ a systematic approach to gather evidence, analyse contributing factors, and develop effective preventive measures to enhance safety and prevent recurrence.

Training Services

- At RLM Consult Certify Comply, we offer a comprehensive range of training programs designed to equip your team with the knowledge and skills needed to excel in their roles and ensure compliance with industry standards and regulations. Our expert trainers deliver high-quality, practical training that covers various essential areas, tailored to meet the unique needs of your business.

Working with Us

At RLM Consult Certify Comply, we bring a wealth of experience and expertise in project management, safety management, and quality assurance. Our knowledge extends to building integrated management systems for ISO certification and ensuring compliance with industry regulations such as ONRSR and OFSC. With a proven track record of delivering high-quality audits, inspections, and investigations, we offer customised solutions tailored to meet your unique needs. We prioritise continuous improvement and proactive risk management, empowering your organisation to thrive.
